. It cover everything from types to example floor plans. This is the best of a bad bunch. This book is very detailed and very informative. It's very interesting. The guides are clear and easy to understand. Everyone should read this also. Should be recommended to all. Most other books never even mention this point. This is of a pamphlet than a book. Don't waste your money on this. Do NOT waste your money on these. Each book is a repetition of the others. Save yourself the money
