Hes not alone. Its a pity shes adorable than menacing. Nobody is safe. Not pineapples. Not bandits. I eagerly await the next book. Kindle It's a fun read. Not much to add. It provides some back stories and possible future story arc. You'll thank me later. Kindle Another great entry into the Unlikely Heroes series. Kindle

This is a love letter to the characters. They are well written good stories and funny. I was especially intrigued by Spot's dream. I wonder if that will be a far future book. But buy this book. It is another collection of short stories. And the humor is still sneaking in. Thankfully mutant cows. Somehow. With plenty of property damage
