

Im the Evil Lord of an Intergalactic Empire! (Light Novel) Vol. 1 By Yomu Mishima **What makes me the evil lord of an intergalactic empire?** 1 I've read the authors other work (Trapped in a Dating Sim: The World of Otome Games is Tough for Mobs) so I was already hyped for this but it just blew me away! I love this world and Liam is a great protagonist. **How do i balance my evil deeds and my love life?** Vowing to lead a life of an evil lord and causing pain and suffering he finds himself being deposited into a futuristic society of technology and magic and the 5 year old lord of an impoverished planet saddles with debt by a God like being known only as the Guide who appears benevolent but is actually a fiend who feeds on suffering. **How do i balance my evil deeds and my love life?** Upon his rebirth he discovers the place he has been given governance over has already been bled dry and finds himself working instead to restore the territory and escape his astronomical debts leading him to be seen as a wise ruler and a true noble in an humorously ironic contrast to his expectations. **What makes me the evil lord of an intergalactic empire?** His poor reputation leads him to be swindled when looking for an instructor but even that can't stop his path to becoming the heroic knight he's meant to be wait wasn't he becoming an evil lord??A comical read with exciting prospects for further volumes. **How do i balance my evil deeds and my love life?** Reborn into the ruling family of a vast interstellar empire Liam knows that life is divided between the downtrodden and the ones who do the stomping so this time hes going to take what he wants and live for himself. **What makes me the evil lord of an intergalactic empire?** Despite doing his best to become a tyrant Liams decisions lead to nothing but peace and prosperity for the empire under his rule I got a kick out of how he believes he's being an evil lord. **How do i balance my evil deeds and my love life?** 1 Our MC reincarnated as Liam after leading a miserable life of hard work crushing debt and being betrayed and abandoned by friends a light hearted Isekai power fantasy with the MC wanting one thing and the rest of the world seeing him do the opposite. **What makes me the evil lord of an intergalactic empire?** Unlike most such stories this is set in a fantasy/SF type of world although it is still kind of simple with little thought to implications of things beyond the direct impact on the MC:
