

Night Train: A Novel By Donald O'Donovan {site_link} Fast furious unforgettable and set against the backdrop of a crumbling civilization NIGHT TRAIN follows arch-outsider Jerzy Mulvaney in an audacious account of what it means to be homeless on the streets of Los Angeles. Night Train: A Novel Without moral rectitude or digressing into the boring played-out over-simplified platitudes of right or wrong black or white rich or poor natural born citizen or immigrant God or no God NIGHT TRAIN: A NOVEL by Donald O'Donovan shows us the absurdity of the fact that in the city of Los Angeles alone three quarters of a million people not only do not have a home but are considered expendable. It is my guess that this book will be ignored now just like the homeless man on the corner is ignored by passing motorists in expensive cars but that it will be lauded in the future when or if the pendulum swings once again and America finally wakes up to this needless brutality of its own people,
