

Hit the Road Jack (Vamp Chronicles, #3) By Christin Lovell Can her friendships survive the pressure of the front lines? And can her relationship with Kellan survive a game of cat and mouse? Predictions aren't always accurate or are they? Hit the Road Jack (Vamp Chronicles #3) Lexi's ability and skills will be tested and stretched to their limits. She is set on another mission to take down the supposedly oldest vampire in the world Jack and faced with happiness and sorrow at the same time as she takes her relationship to the next level. Lexi and Kellan her boyfriend have a special relationship others try to test it will they succeed? Lexi has another problem what does she do when a prophecy has already declared what her and Kellan's destiny is? Can it be changed? Can they all survive the battles to come? I really liked this book. But what can I do? I'm already 3 books into the series! Will I purchase the 4th and hopefully last book in the series? Probably yes - I'm just too OCD not to! Kindle Edition A bit disappointing I mean the ending was a bit forced Jack kills a lot of people just to end up replacing R. So here's the book review ta-da! Kindle Edition I loved this book! I forgot all about it till I was rereading the second one! Can't wait for my dad to get me the next 2 because after that there's only one left in the series. only to have my mother interrupt an important scene! Hope to read the next one soon!!!!!!! Kindle Edition I love vampires and now vampeens!!!! The story in this book was fresh and I enjoyed the change of scenery. Why did they travel to all the different country's? Gabi and Jack? All through the book I was like what??? I'm so confused but am I going to buy the other books? Sadly yes I am: Christin Lovell has created a really unique story line that you don't see in any other stories that are like: She creates new twists to stories that are similar to this one but she makes it so it is really different: She develops completely new characters in a different way and there is a lot of mystery brought into developing them: She keeps you on the edge of your seat and always wanting to know more, Kindle Edition I was given this book in return for an honest review: Lexi is a teenager on a mission.

Some hunt and some are hunted: With lives at stake literally Lexi travels the globe pursuing the element of surprise against her enemy. Unfortunately it seems there's a mole in her tightknit group: Lexi is forced to reevaluate her relationships old and new as her target closes in on her, This time however she is not only endangering herself but almost everyone else she loves: Lexi is faced with learning what is to be and what the prophecy says about Lexi's and Kellan's relationship. In a second of victory all shall be lost for a lone stray shall have his way: A shot shall echo through the forest floor a mission to find and defeat Jack the oldest vampire, Problem is there may be a traitor in her group of trusted friends: This book introduces new characters that blend in with the old ones. It's ok I picked up what I need to know and I thought it was a good read, Check it out it is a book that will appeal to young adults and adults alike: Kindle Edition OMG I loved it I hope it is isn't over Kindle Edition Ok there were parts of this book that were just plain hard for me to get a grip on. I found myself actually telling the main character Lexi how stupid she was (out loud)! And the end - I just shook my head in disbelief: Kindle Edition I was born and raised in Charleston SC but now live in the hottest place on earth: Orlando FL: I have three beautiful children who keep me running non stop. When I'm not juggling life and kids you'll find me huddled away somewhere writing my next book or happily reading someone else's: Like most authors I've come across I'm a coffee addict own far too many books than I can fit on my shelves and I go to work in my pajamas a lot. Author Facebook: {site_link} Chronicles Facebook: {site_link} I was born and raised in Charleston SC but now live in the hottest place on earth: Orlando FL, I have three beautiful children who keep me running non stop: When I'm not juggling life and kids you'll find me huddled away somewhere writing my next book or happily reading someone else's: Like most authors I've come across I'm a coffee addict own far too many books than I can fit on my shelves and I go to work in my pajamas a lot. Author Facebook: {site_link} Chronicles Facebook: {site_link} {site_link} I honestly did not like this book, I was dissatisfied with the ending and the prophecy stuff is annoying, I feel so bad for him because Lexie is really dumb to choose Kellan over Kai: Anyways I wish this book had been sooo much better than it was. Well not win but you know what I mean! Although since Lexie is taken by Kellan that leaves Kai available: And I think its safe to say that none of them will ever catch a break till their

dead: The author always does such a good job with her villains! Oh and GAH!!! the romance is soooo good. I was a little disappointed at the end to find it unravel the way it did but it made so much more sense in the next book. Book 4 was instantly purchased! Kindle Edition Once again I would like to mention the beautiful new cover to this book. Love it! Hit the Road Jack is the third book in the Vamp Chronicles series. There is a lot more violence than in the other books but it also shows the strenghts of the charcters. When in the life of the super natural how can you not have at least one senerio that is not as upbeat as the others. Kindle Edition The only reason l gave this book 3 stars is because l love the characters but this book was very disappointing. I have so many questions like what was the point of the book[1]

An impact so strong he shant steal a chance. Christin Lovell also is always adding new twists. Nobody is above suspicion. This is my first one and I know I have skipped some. Now I'm going to go back and read the beginnings. I usually don't read out of order but things happen. and not a bad guy. While Lexi remains the most indecisive character ever. It was hurried and not like the other books. Does Kellan die? If so great I never liked him. KAI is the best guy for anyone. Kellan doesn't even trust her! And the end! Ugh. KAI should win.Have to think about this.But on the uphand.OHMIGOSH! The surprises in this book.for the second time! :) Or for some 3times the charm. This book was down right awesome. It was fastpaced and thrilled me with anticipation. Now this book does take a darker turn. I really enjoyed this installment in the series. Especially the ending.sigh.?????sigh Kindle Edition
