Learning to forgive and finding the future. I really enjoyed it. Isaac is definitely a lone wolf. Avery did just that. It makes it more realistic. I liked nothing about this book but the animals. The dog and the horses. They were the highlight of the story. That part was the most emotional. The book could be about them and I'd be happy. Avery has her own issues. Avery and Isaac's meet cute is just that.

Avery is unlike any woman he's ever known. Her smile thaws his frozen heart. Being with her heals his broken places. It's Avery or his career. Finally life is just where Avery wants it to be. Isaac is hanging onto the last bit of rope in his career. You see Isaac has a few problems. In fact Isaac isn't much of a team player at all. He lives with guilt every day of his miserable existence. He is "Ice." No one likes him. Hell even his dog hates him. Avery is that one and done ride he's itching for. Neither Isaac nor Avery can forget their explosive beginning. Boy is she successful. A touching story lingers even after the last page. Enjoyed reading this book. I liked Isaac's character. His reputation proceeds him. I couldn't believe some of the things that Isaac suffered. My heart went out to him. Avery is great. I like that she followed her dream to work with horses. They understand each other. Melting Ice has a believable and entertaining plot. It is heartwarming and kept me enthralled. I could not put this book down. Complimentary copy provided in exchange for an honest review. Isaac pushes everyone away until he meets Avery. She can see Isaac's pain and wants to help him. This entertaining heartwarming story is fast paced sorry just no. There is too much wrong to list just no sorry that's too much. A world where no one team and family alike is invited. Hockey is his life. He's damn good at it and it's all he wants to do. Sure Isaac runs into Avery. Cue the sparks and chemistry. Ms. Davenport kept that from happening. She still misses her SuperSonics. In her opinion it's the most beautiful place on earth. {site\_link}.
