I read this in the webtoon app. It's a cute story about Yumi and her cells. There's fashion cell love cell hunger cell writer cell etc. Yumis Cells Paused at episode 343. The main plot is going in a way I don't like. It's really cartoony. I found it cute and quirky. Eventually I'll catch up but not anytime soon. Yumis Cells Really enjoyable and engaging. Yumi's Cells is humorous and really enjoyable. Anyway. It's so light and easy to read. Overall the quality is pretty consistent. Looking forward to future updates. It shows huge character growth.
