

The Simple Seerah: The Story Of Prophet Muhammad - Part One: 1 By Asim Khan The target audience is teens however younger readers would appreciate it and most definitely adults too! I have read a few Seerah books but have to say hands down this is one of the best. One thing that really kept me engaged is that the book isn't just a bunch of facts and figures but it allows you to experience the Seerah as if you were there yourself. I'm not the type to read introductions or forewords of a book to be honest but once you read it in the voice of Mufti Menk trust me it's worth it! The Cover They say don't judge a book by its cover but you must give credit to the graphic designer right? I love the illustration which is of the Ka'bah from how it might have looked 1400 years ago and houses dotted around with mountains in the background. Rasulallah Sallallahu Alyhiwasallam received the first verses of the revelation of the Qur'an at the cave of Hira where he used to spend time in solitude at times and would be able to see the Ka'bah from too.

Suggestion Although I understand that there is a fiqhi position of how often a person should send Salam upon Rasulallah Sallallahu Alyhiwasallam every time we hear his name I would suggest that the authors insert the Arabic at least as that'll encourage readers to say it regularly. I would highly recommend anyone to purchase and read this book as not only will you help the team to publish works but it will surely increase your love for Rasulallah Sallallahu Alyhiwasallam and the Sahabah RadhiAllahu Anhum inshaAllah. May Allah reward the authors the team behind the book and those who supported to produce it whether by donating funds towards it or sharing marketing materials between their contacts Aameen May Allah give the authors and the team the Tawfiq to produce publications that benefit the Ummah Aameen. A book of the prophet peace be upon him that is so simple to understand yet so engaging! I highly recommend this book! I'm not a book reader at all but wow by reading this book it makes me want to read books from Asim Khan:

It's actually thoroughly researched with every quote directly taken from a classical seerah book: The descriptive language used puts the reader in the moment as if they are present. Egypt An amazing book which I feel achieves what it sets out to do. An easy to follow writing style which illustrates and tells the story in such a way it's thoroughly engaging and keeps you wanting, Definitely a buy I would recommend and a book which should be on all bookshelves. 89 shipping The Simple Seerah: The Story Of Prophet Muhammad - Part One: 1 I really am enjoying reading the book its so different in the style it uses: Its really engaging for the reader and transports you back in time and you feel you are actually there with the prophet pbuh. Highly recommend it for all ages young and old Egypt This book's prose and style of writing really surprised me. The English used is easy to follow and the vocabulary use is brilliant and serves its purpose of creating vivid imagery of the events happening, Most of all what I really admire is the organisation of the story telling: Instead of strictly following a chronological order this book presents the events in a way which is reminiscent of an enthralling novel which is hard to put down, Kudos to the Authors and thank you for such a well written book: Don't let the name deceive you 2021 "Hushed murmurs filled the air, His presence even in a state of sickness warmed the room, "The other day I bumped into the co author Toyris and I told him that whilst I was reading the book it was as if I teleported to 1400 years ago, The Simple Seerah is a book written by Ustadh Asim Khan and Isa Toyris Miah: It is as you have guessed a book about the life of Prophet Muhammad Sallallahu Alyhiwasallam. I felt like I was walking with Rasulallah Sallallahu Alyhiwasallam and the Sahabah RadhiAllahu Anhum. I got teary at parts of the book and why wouldn't I you feel for Rasulallah Sallallahu Alyhiwasallam, Although I've read and heard the Seerah multiple of times throughout reading this book I was always wondering and expecting what would happen whilst the story went on. Had it not been for commitments in between I think I would have read the book in one sitting! It was hard to put the book down. I particularly loved the interactions between Rasulallah Sallallahu Alyhiwasallam and our Mother Khadijah RadhiAllahu Anha something you don't see on other books, Of course we know that they lived 1400 years ago but reading the descriptions in such a personalised way and putting oneself in those moments takes it to a whole new level, The book covers the Makkan period so it's part one of the series and I believe part two will come out soon which I'm very much looking forward to. Mufti Menk The book has roughly 140

pages including a foreword by Mufti Ismail Menk of Zimbabwe. What's quite cool is that the illustration is of a cave opening looking down at the Ka'bah: However I appreciate that they did mention for readers to say it and I also appreciate the rulings behind this case: Conclusion I really enjoyed the read and am very grateful to the authors for putting this together.
